# Ornamental and Fruit Trees

Price List

California  
Nursery Co.  
Niles, California

ESTABLISHED 1865

# PRICE LIST

## ANNOUNCEMENT

This price list is being issued earlier than usual in order that our customers may have an opportunity of advising us of their requirements as soon as possible. There has been such a shortage of Nursery stock during the past two years that many of our friends were disappointed because of our inability to fill their orders.

Naturally it is our wish that those who have been favoring us with their business for a number of years should have our first consideration. There is every indication that with the unusual demand for fruit and ornamental trees for planting during the season of 1920-21 that our supply of stock will again be exhausted before the season is fairly well started.

We grow the most complete assortment of DECIDUOUS ORNAMENTAL TREES, SHRUBS AND CONIFERS AND BROAD-LEAVED EVERGREENS to better advantage, possibly, than in any other section of California. Our soil balls well and makes it possible to move all of our evergreens with every assurance that they will grow.

We are already very heavily engaged in the rose business, but realizing our great advantages for growing field-grown budded roses, this is a branch of the business we expect to specialize in.

With few exceptions our fruit trees are being grown in our branch nurseries at Loomis, California. After carefully investigating every section of the state, we finally concluded to raise our trees there because they not only mature well in the fall, but also because the soil, a disintegrated granite, produces a very fine, fibrous root system.

Many of the varieties of fruit trees, so important commercially in California today, have had their origin in our Nursery. Our test orchard, covering forty acres and containing, approximately, a thousand varieties of fruit trees, is a branch of the business of which we are very proud. These trees are the source of bud wood for growing our exceptionally fine, well-matured, perfect root system trees.

In conclusion allow us to say to our customers and friends that we want their business solely with the view of giving them value received for the confidence they repose in us.

## INFORMATION FOR PURCHASERS

**PRICES:** All prices quoted in this list are for stock at Niles. All former quotations cancelled by the issuance of this list.

Stocks mentioned in this list will be furnished as follows: 5 of a variety at the 10 rate; 50 at the 100 rate; 300 at the 1000 rate where the 1000 rate is quoted.

## ACCEPTANCE OF ORDERS

We accept all orders on condition that same shall be void should injury befall our stock from fire, frost, floods, drouth or any other cause which could not be prevented and over which we have no control.

**SUBSTITUTIONS:** Unless advised to the contrary, we will make substitutions where necessary to fill orders complete.

## GUARANTEE

We exercise great care to have all nursery stock true to name, nevertheless it is understood that should any stock prove otherwise, we shall not be liable for any sum greater than that paid us for only such stock as shall prove untrue.

**ERRORS:** Errors or complaints must be reported within ten days after receipt of goods.

**PACKING CHARGES:** We charge for same only to cover the cost of material used.

Address all communications to

**California Nursery Company**  
NILES, CALIFORNIA

## Hints on Transplanting

The many excellent treatises on Fruit Culture which have appeared within the past few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole, and worked carefully in between every root and fiber, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may in light soils stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

It is very important to whitewash the bodies of all fruit trees, and in addition to this, to protect them with tree protectors. This prevents both the attack of insects and sunburn.

## Planting Distances

	Distance apart each way
Standard Apples.....	25 to 30 feet
Standard Pears.....	24 to 30 feet
Dwarf Pear.....	12 to 15 feet
Strong-growing Cherries.....	24 to 30 feet
Duke and Morello Cherries.....	18 to 24 feet
Standard Plums and Prunes.....	24 to 30 feet
Peaches and Nectarines.....	24 to 30 feet
Apricots.....	24 to 30 feet
Figs.....	25 to 35 feet
Olives.....	30 to 35 feet
Citrus Trees.....	22 to 30 feet
Walnuts.....	40 to 50 feet
Almonds.....	24 to 30 feet
Grapes.....	6x6, 6x12 and 8x10 feet
Currants and Gooseberries.....	4 by 6 feet
Raspberries and Blackberries.....	3 to 4 by 5 to 7 feet
Strawberries for field culture.....	1 to 1½ by 4 to 5 feet
Strawberries for garden culture.....	1 to 2 feet apart

### NUMBER OF TREES OR PLANTS ON AN ACRE AT GIVEN DISTANCE APART

DISTANCE	Number of Plants	
	Square Method	Equilateral Triangle Method
1 foot apart each way.....	43,560	50,300
2 feet apart each way.....	10,890	12,375
3 feet apart each way.....	4,840	5,889
4 feet apart each way.....	2,722	3,130
5 feet apart each way.....	1,742	2,011
6 feet apart each way.....	1,210	1,397
7 feet apart each way.....	807	928
8 feet apart each way.....	680	785
9 feet apart each way.....	537	620
10 feet apart each way.....	435	502
12 feet apart each way.....	302	348
14 feet apart each way.....	222	256
15 feet apart each way.....	193	222
16 feet apart each way.....	170	195
18 feet apart each way.....	134	154
20 feet apart each way.....	109	125
22 feet apart each way.....	90	104
24 feet apart each way.....	75	86
25 feet apart each way.....	69	79
30 feet apart each way.....	48	55
35 feet apart each way.....	35	40
40 feet apart each way.....	27	31
50 feet apart each way.....	18	20

**Rule—Square Method**—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

**Rule—Equilateral Triangle Method**—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

## PEARS—Prices and Varieties

### Budded on Quince Roots, "Double-worked" on Beurre Hardy Pear

The Beurre Hardy Pear is used for budding on the Quince because of its great affinity for this stock. Many other varieties of Pear will not take on the Quince; we therefore bud the Beurre Hardy first on the Quince stock and then in turn bud the various varieties listed below on the Beurre Hardy.

	EACH	10	100
4 to 5 ft.....	\$1.00	\$9.00	\$75.00
3 to 4 ft.....	.90	7.50	65.00

✓ Coe's Golden Drop	✓ Jefferson	✓ Wickson
Diamond	Kelsey Japan	Yellow Egg

Our descriptive catalog contains descriptions of varieties listed in this booklet. Will be mailed on application

DOUBLE X FRENCH PRUNE

COMMON FRENCH PRUNE

The background shows DOUBLE X FRENCH PRUNE drying on tray. Note the difference in the size of the fresh fruits.

DOUBLE X FRENCH PRUNE trees in the J. E. Cox orchard at Saratoga. The trees are three years old. Note the wonderful growth. Banner Strawberries are planted in rows between the trees.

## Double X French Prune

This is a genuine bud sport of the French Prune, taking its origin in the famous Saratoga prune district on the F. B. Smith place in Santa Clara County, Calif.

Of all the new types of French Prunes originated in recent years, this one gives promise of becoming a standard. It is only after careful observation of several orchards in this district, ranging in age from five to seven years, that we concluded to offer it for sale. The trees are remarkably strong growers, exceeding any other variety of prune. The bearing qualities of the trees have been fully demonstrated and the trees bear equally as well as the common French Prune.

This is the same Prune which has been on the market for a few years under the name 14-18. Suggestion has been made to call it the Saratoga but as this name would not have characterized its distinctiveness, therefore we concluded to designate it as the **DOUBLE X FRENCH PRUNE**, a significant name characterizing its many superior qualities.

In the Fall of 1919, dried sample of the French, Imperial, Sugar and this prune were taken from the Saratoga district and forwarded to the University of California for analysis. **DOUBLE X FRENCH PRUNE** analyzed higher in sugar content and had a greater percentage of flesh as compared with the pit than any of the other varieties under investigation. The prune dries readily, so there is no difficulty on this score. In the nursery this prune outgrows all other prune trees. The Improved French Prune, which we have been offering for a number of years has become recognized by the prune growers as having all the merits which we claimed for it.

**DOUBLE X FRENCH PRUNE** is another forward step, marking a new era for larger sizes in the French

prune type and possessing all of its qualities. We wish to assure prune growers that this prune is no longer an experiment, a fact which will be certified to by Messrs. F. B. Smith, J. E. Cox and Budd Cox of Saratoga. These men have this variety in bearing and appreciate very fully the value of this prune as the very best in drying prunes.

### GRADERS' CERTIFICATE No. 90467

The following is a copy of the "Door Receipt" given to Mr. J. E. Cox of Saratoga by the California Prune and Apricot Growers' Association on October 3, 1920. 44 sacks **DOUBLE X FRENCH PRUNES** WEIGHING 4770 Lbs.

They were graded as follows:

2323 lbs. graded 20s to 30s.

1961 lbs. graded 30s to 40s.

486 lbs. graded over 40s.

This is conclusive evidence that the **DOUBLE X FRENCH PRUNE** grades the largest sizes of any dried prune on the market.

### DOUBLE X FRENCH PRUNE On Almond, Myroblolan and Peach Roots

	EACH	10	100
4 to 6 ft.....	\$1.00	\$9.00	\$75.00
3 to 4 ft.....	.90	8.00	65.00
2 to 3 ft.....	.80	7.00	55.00

**DOUBLE X FRENCH PRUNE**, after being dipped, are spread on trays for drying. Scene at the J. E. Cox orchard near Saratoga, California.

**IMPROVED FRENCH PRUNE**

Several years ago, Mr. J. R. Chadbourne, a prominent orchardist of Suisun, Solano County, California, called our attention to an orchard of French Prunes in that district in which there were a number of trees bearing large sizes of fruits. After careful investigation, we found this to be the case and immediately secured the buds from the best trees for propagation in our nursery.

The Improved French Prune is almost identical with the common variety except that the trees have a weeping habit and have larger foliage. The fruits will average 40s to 50s from year to year. It dries just as well as the small French Prune.

Mr. Chadbourne, in speaking of the prune, says: "I can frankly state that it is fully entitled to the name 'Improved French Prune,' and I would recommend as a fruit grower that purchasers should give preference to this variety, due to its many superior qualities."

**IMPROVED FRENCH PRUNE**

## Cory Thornless Blackberry

**CORY THORNLESS BLACKBERRY**

Is without question far superior to any other variety on the market today. Full size cut of fruit.

### CORY THORNLESS BLACKBERRY

The big luscious berries often grow to a length of  $2\frac{1}{2}$  inches, have a small core, are almost seedless and the distinctive flavor is suggestive of the wild berry. They are richer and sweeter than other blackberries, yet have sufficient acidity to make the finest of jelly.

The vigorous canes grow erect to a height of about five feet then assume a trailing habit, making a growth of 25 feet or more, and properly cared for gives enor-

mous yields through a long season, thrives in any good soil and will amply repay for special culture and fertilization.

For Commercial Growers "Cory Thornless" will be a big moneymaker, having proven superior in every way to other blackberries in our growing tests covering several seasons, stands handling and shipping and costs less to pick and prune.

# Ornamental Department

In our climate both evergreen and deciduous trees can be transplanted successfully during the winter months. Palms and bamboos move best in the late spring. The foregoing applies particularly to plants that have to be dug from the open ground. Those grown in pots and also plants established in boxes can be planted at any time during the year if they receive proper care and attention.

## DIGGING HOLES

In preparing the hole for planting, the hole should be made SQUARE and much larger than the root system of the plant. Take out the soil to at least a foot deeper than necessary to accommodate the roots. Partially fill in the hole with good soil and firm well to a height necessary to accommodate the plant, taking care that plant will rest at the same height that it stood in the nursery row.

In filling in the hole around a balled tree, do not tramp on top of the ball, as this will break it, dislodge the fibrous roots and in many instances cause the plant to die. After the hole in which the balled tree is planted is partially filled, cut the cord at the top of ball and turn down the burlap so that it will be completely buried when the remainder of the hole is filled in. Do not entirely remove the burlap from the ball, it will soon rot.

## BOXED PLANTS

When plants come boxed, stand in the hole just as the plant will remain when planted. When in its proper position, tilt box to one side and remove one-half of the bottom, reverse the operation and remove the other half of the bottom. The sides should then be carefully removed, taking care not to disturb the plant. Soil should be filled in around the plant, well firmed and watered thoroughly. It is best to leave a good basin around the plant, which should be filled several times to insure water reaching the bottom of the hole. If the weather is hot, it is a good plan to let the tops of evergreens stay tied up for a few days. It greatly reduces evaporation and helps the trees to get established. Keep tops well sprayed.

## DECIDUOUS TREES AND SHRUBS

The tops of deciduous trees and shrubs should be pruned in proportion to the amount of roots lost in transplanting. Their natural shape should be preserved as much as possible. The depth of the hole should permit the neck of the plant to be as near the surface of the ground as it was originally. Firm soil well around the roots and water thoroughly. Do not put manure among the roots when planting. A good mulch of manure or straw on top of ground around the plant will be beneficial.

All broken or bruised roots should be cut back with a sharp knife to good sound wood. In planting deciduous trees and shrubs with bare roots, the hole should be large enough to allow all the roots to be spread out to their full length and in their natural position.

In nearly all cases it is advisable and in hot districts it is of utmost importance to give the trunk of the tree some protection to guard against sunburn. A good method is to whitewash the trunk from the top of the ground to the first branches and wrap loosely with burlap. Where sunburn occurs, it is an invitation for borers to enter the trees.

Most trees should be firmly staked when planted, as this will prevent heavy winds from loosening them and insures a straight growth. This is a very important precaution with both deciduous and evergreen trees and is too often neglected. In fastening the tree to the stake, take pains to do it so the tree will not be chafed or choked by the rope.

Proper planting, while of the very greatest importance, is really only a good start in the right direction. Trees may live if neglected, but they will come very far from attaining perfection. Never let them get dry the first summer. When you water the ground around them, see that it is thoroughly soaked. This is vastly better than giving them a little water continually. The tops will appreciate almost daily spraying on hot days in early morning and evening hours during the driest weather. Keep the ground around your plants and trees thoroughly loose and preferably mulched as well. Good stock properly planted and cared for will more than repay all expenditure of time and money.

## Conifers

This division embraces the most beautiful evergreen trees suitable for the Pacific Coast. When planted as specimens, most of them require no pruning, in fact would be injured by it. The lower limbs must be allowed to remain; to remove them is to destroy the beauty of nearly any conifer. If any particular situation makes a bare trunk imperative, it is better to plant some other kind of a tree.

B. darwini	B. elegantissima
B. illicifolia	B. pruinosa
B. stenophylla	B. wilsonae

### BUDDLEIA (S.)

	EACH	10
Balled, 3 to 4 ft.	\$1.00	\$7.50
Balled, 2 to 2½ ft.	.75	6.00
Balled, 1½ to 2 ft.	.60	5.00
B. globosa (flowers yellow)	B. variabilis (flowers	
B. officinalis	lilac)	

### BUXUS (Box) (S.)

	EACH	10
Cones and triangular pyramids	\$5.00	\$40.00
Balled, 3 to 3½ ft.	4.00	35.00
Balled, 2½ to 3 ft.	3.50	30.00
Balled, 2 to 2½ ft.	3.00	25.00
Balled, 1½ to 2 ft.	2.50	20.00

	EACH	10
Cylinders and square columns	\$5.00	\$40.00
Balled, 2 to 2½ ft., 14 to 16 in. wide.	4.00	30.00
Balled, 2 to 2½ ft., 12 to 14 in. wide.	3.00	25.00
Balled, 1½ to 2 ft., 12 to 14 in. wide.	2.50	20.00
Balled, 1 to 1½ ft., 8 to 10 in. wide.	2.50	20.00

	EACH	10
Globes	\$5.00	\$45.00
Balled, 18 to 22 in.	3.50	30.00
Balled, 15 to 18 in.	3.00	25.00
Balled, 12 to 15 in.	2.50	20.00

## TRAINED BOXWOODS

Reading left to right: **SQUARE COLUMN, GLOBE, TRIANGULAR PYRAMID, CYLINDER, CONE, STANDARD**  
Our plants are field-grown, they are then established in the containers as shown. Trained specimens are particularly adapted for formal plantings or porch decorations.

## Small bushy plants for hedges (not trained)

## Varieties

E. berteriana (flowers white)	E. crimson flowering
E. montevidensis (white)	E. rosea (pink)
	E. olea

**Escallonia (Rare)**

	EACH	10
Balled, 3 to 4 ft.....	\$3.00	\$25.00
Balled, 2 to 2½ ft.....	2.50	20.00
Balled, 1½ to 2 ft.....	1.50	12.50
Potted, 1 to 1½ ft.....	1.00	7.50

## Varieties

E. virgata (white)	E. rubra (red)
--------------------	----------------

**EUCALYPTUS (T.)**

	EACH	10	100
Potted, 5 to 6 ft.....	\$1.00	\$7.50	\$60.00
Potted, 4 to 5 ft.....	.75	6.00	50.00
Potted, 3 to 4 ft.....	.60	5.00	40.00
Potted, 2 to 2½ ft.....	.50	4.00	30.00
Flats, \$3.50 for 100; \$30.00 for 1000.			

## Varieties

E. corynocalyx	E. crebra
E. leucoxylon	E. globulus
E. polyanthemos	E. robusta
E. rostrata	E. rufida
E. tereticornis	E. viminalis

**Eucalyptus Ficifolia (Scarlet Flowering)**

(Scarce)	EACH	10
Potted, 4 to 5 ft.....	\$1.50	\$12.50
Potted, 3 to 4 ft.....	1.25	10.00
Potted, 2 to 2½ ft.....	1.00	8.00

**EUCALYPTUS Globulus Compacta (Bushy)  
(Rare)**

EACH	10	100
Potted, 1½ to 2 ft.....	\$1.00	\$7.50
Potted, 1 to 1½ ft.....	.75	6.00

**EUGENIA (S.)**

EACH	10
Potted, 3 to 4 ft.....	\$1.50
Potted, 2 to 2½ ft.....	1.25
Potted, 1½ to 2 ft.....	1.00

## Varieties

E. apiculata	E. hookeriana
E. myrtifolia	

**EVONYMUS (S.)**

Trained, well-formed plants.

EACH	10	100
Balled, 3 to 4 ft.....	\$2.00	\$15.00
Balled, 2 to 2½ ft.....	1.50	12.50
Balled, 1½ to 2 ft.....	1.25	10.00
Balled, 1 to 1½ ft.....	1.00	7.50
Balled, 8 to 12 in.....	.75	6.00

## Varieties

E. japonica (Green)
E. japonica albo-marginata (Silver-Marginated)
E. japonica albo-variegata (Silver Variegated)
E. japonica aureo-variegata (Golden Variegated)
E. japonica columnaris (Glossy Green)
E. japonica viridi-variegata (Duc d'Anjou) (Golden)

**Evonymus (Rare)**

EACH	10
Balled, 1½ to 2 ft.....	\$1.50
Balled, 1 to 1½ ft.....	1.25

## Varieties

E. japonica aureo-marginata (Golden)
E. japonica microphyllus pulchella
E. japonica microphyllus variegata
E. radicans (Climbing)
E. radicans acuta (Climbing)
E. japonica pres gouthier
E. radicans argentea-marginata (Climbing)
E. radicans variegata

We can furnish E. microphyllus pulchellus in small plants for hedges and borders.

EACH	10	100
8 to 12 inches.....	\$0.75	\$6.00

**FABIANA Imbricata (S.)**

Potted, 3 to 4 ft.....	\$1.00	\$7.50	

## Varieties

- S. junceum* (Spanish Broom)

**Spartium**

	EACH	10	
Potted, 1½ to 2 ft.....	\$1.50		

*S. Junceum Nana* (Dwarf Spanish Broom). This variety originated with us and is now offered for the first time. A dwarf form of Spanish broom but differs entirely in habit of growth. It develops a large number of slender branches, which form a fine compact globe-shaped head, completely hiding the stem of the plant. Branchlets are clear green and almost devoid of leaves. When covered with its bright yellow flowers it is a magnificent sight. An excellent plant for foreground plantings and for borders. A very desirable shrub.

**STERCULIA Diversifolia (Bottle Tree) (T.)**

	EACH	10	
Bare roots 2 to 3 ft.....	\$0.75	\$6.00

*V. tinus variegatum*

**Deciduous Ornamental Trees**

This division is self-explained by the title, except that trees of drooping or "weeping" habit are classed together in the next section.

The best street trees for this part of California are included in this division. Evergreens are used in Southern California, but in Northern California deciduous trees are better, as they afford needed shade during the summer, but admit sunshine in winter, which helps to dry the mud after rains.

In this class will also be found some of the most beautiful specimen trees, others valued for their wealth of blossoms and some "general purpose" trees.

All have been carefully grown, and such as needed it pruned each year. It is advisable, however, when planting, to cut back pretty well all but a few kinds. This helps the tree to become established and lessens the risk of loss. It is easy to cut back too little, but hard to overdo it.

In the hot interior valleys it is advisable to shade the trunks of this class of trees until they become well established.

Trees where the diameter measurement and height are given are specimens. We dig such trees with an ample root system and where it is desirable to secure an immediate effect we recommend planting them in preference to the smaller trees. In order to convey some idea of their size we indicate the height as well as the diameter measurement which is taken six inches above the ground.

- U. americana (American or White Elm)
- U. campestris (English Elm)
- U. campestris latifolia (Broad-leaved English Elm)
- U. foliacea suberosa (Cork Elm)
- U. hollandica vegeta (Huntingdon Elm)

## Flowering Fruit Trees

Under this head we are listing the different varieties of fruit trees, including apple, almond, peach, cherry and plum. These trees are very attractive, both in fruit and foliage and contribute greatly to the beauty of our gardens in the early spring. Their beauty and charm are indeed individual, and no one should forego the joy of these trees somewhere in their grounds.

**AMYGDALUS (Pink Flowering Almond)**

Price	EACH
.....	\$1.25

**PRUNUS (Foliage Plums)**

Price	EACH
.....	\$1.50

**Varieties**

- Purple Leaf Plum
- Vesuvius Plum

**PERSICA (Flowering Peach)**

**PYRUS (Flowering Apple)**

Price	EACH
.....	\$1.50

**Varieties**

- P. ioensis bechteli (Bachtel's Double Pink Flowering)
- P. niedzwetzkyana (Red)
- P. spectabilis albo pleno (White)

## Deciduous Weeping Trees

The trees in this class are characterized by the tendency of the branches to droop or even grow directly downward. Almost all are beautiful specimen trees, sharply distinguished from the preceding class by their habit of growth, which renders them invaluable for making a contrast in large plantings. Varying in size from the diminutive weeping cherry to large trees like the weeping willow, they offer a wide range for choice. In waterside planting the use of this class of trees is imperative if natural landscape effects are to be reproduced. They require little or no pruning.

**BETULA Pendula Gracilis (B. alba pendula laciniata) (T.) (Cut-Leaved Weeping Birch)**

	EACH	10
12 to 14 ft.	\$4.00	....

**Variety**

- S. osier (Basket Willow)

**ULMUS Glabra Camperdownii (Camperdown Elm) (T.)**

	EACH
6-in. stems grafted 12 ft. high, very heavy head	\$20.00
4-in. stems grafted 10 ft. high, very heavy head	15.00
3-in. stems grafted 10 ft. high, 3-year head	12.00
2½-in. stems grafted 8 ft. high, 3-year head	10.00

## Deciduous Shrubs

A class of shrubs too little planted in our State. Few of the evergreens are as free bloomers as the best of the deciduous. Of course, they are bare during the winter, but the beautiful, fresh spring foliage, so often accompanied by the flowers, more than compensates. To ignore them means to lose many of the very best things available for our climate.

A good general rule is to prune these shrubs when they have finished blooming. This is very necessary with such as bloom from the old wood of the previous season; observation will show which these are. To prune them when dormant spoils their chances of flowering. Those which bloom from new wood of the current season's growth can be pruned either when dormant or after flowering.

## Climbing Plants

It is difficult to indicate sizes on this class of stock. Plants are either grown in the field or in pots.

### ACTINIDIA Chinensis

	EACH	
Pot grown.....	\$1.25	

### AKEBIA

	EACH	
Pot grown.....	\$0.75	

#### Varieties

A. lobata                    A. quinata

### AMPELOPSIS (Parthenocissus)

	EACH	10	
Pot grown.....	\$0.60	\$5.00	

#### Varieties

A. henryana  
 A. quinquefolia (Virginia Creeper, Woodbine)  
 A. tricuspidata (Ampelopsis Veitchii) (Boston Ivy)  
 A. tricuspidata atropurpurea  
 A. sempervirens (Evergreen Ampelopsis)

### BIGNONIA

	EACH	10	
Pot grown.....	\$0.75	\$6.00	

#### Varieties

B. alba (Pithecoctenium) (pure white)  
 B. cherere (Phaedranthus buccinatoria) (blood-red, yellow base)  
 B. grandiflora (Campsis chinensis) (Trumpet Vine) (flowers red)  
 B. speciosa (Clystoma callistegloides) (lilac, yellow inside)  
 B. tweediana (Unguis-cati) (canary yellow)  
 B. venusta (Pyrostegia venusta) (bright orange)

### BOUGAINVILLEA

	EACH	10	
Pot grown.....	\$1.25	\$10.00	

#### Varieties

B. glabra variegata (Bougainvillea Wm. K. Harris) (leaves green, variegated creamy white)  
 B. spectabilis (rosy magenta)

### Bougainvillea

	EACH	
Pot grown.....	\$3.00	

#### Variety

B. spectabilis lateritia (brick red)

### CLEMATIS

	EACH	10	
Pot grown.....	\$0.75	\$6.00	

#### Varieties

C. montana rubens (deep pink) C. paniculata (white)

### Clematis (Large Flowering)

	EACH	
Pot grown.....	\$1.50	

#### Varieties

Henryi (white)              Jackmanni (purple)

### CLANTHUS Puniceus (Parrot's Bill)

	EACH	10	
Pot grown.....	\$0.75	\$6.00	

### DECUMARIA Barbara (Climbing Snowball)

	EACH	10	
Pot grown.....	\$0.75	\$6.00	

### FICUS (Climbing Fig)

	EACH	10	
Pot grown.....	\$0.60	\$5.00	

#### Variety

F. repens (F. pumila)

### Ficus

	EACH	10	
Pot grown.....	\$0.75	\$6.00	

#### Variety

F. pumila minima

### HARDENBERGIA Monophylla

	EACH	
Pot grown.....	\$1.00	

### HEDERA (Ivy)

	EACH	10	
Pot grown.....	\$0.50	\$4.00	

#### Varieties

H. helix (English Ivy)  
 H. helix marginata (Variegated English Ivy)

### HIBBERTIA Volubilis

	EACH	
Pot grown.....	\$1.00	

### HOYA Carnosa (Wax Plant)

	EACH	
Pot grown.....	\$1.00	

### JASMINUM (Jasmine, Jessamine)

	EACH	10	
Pot grown.....	\$1.00	\$7.50	

#### Varieties

J. azoricum (flowers white)  
 J. beesianum (pink)  
 J. floridum (yellow)  
 J. gracillimum (pure white)  
 J. grandiflorum (Catalonian Jasmine) (White)  
 J. humile (J. revolutum) (yellow) (Italian Yellow Jasmine)  
 J. nudiflorum (yellow)  
 J. primulinum (Double Yellow Jasmine)  
 J. paniculata  
 J. trachelospermum (Star Jasmine) (flowers creamy white)

Our descriptive catalog contains descriptions of varieties listed in this booklet. Will be mailed on application.

<i>W. multijuga alba</i> (White Japanese Wistaria)			
<i>W. multijuga rosea</i> (Pink Japanese Wistaria)			

## Bamboo

A class of plants combining the greatest utility with graceful beauty. In spite of common opinion there is a great diversity of form and appearance from little dwarfs only a foot or two tall to those attaining even a hundred feet in their native haunts. With greater appreciation of the individuality of different species they are steadily attaining greater and well-deserved popularity. The cut shoots of several species afford splendid material for decoration.

Field clump.....	EACH \$2.00	10 \$15.00	<b>BAMBOO</b> ( <i>Arundo</i> ) (False Bamboo)	
Varieties			Field clumps..... EACH \$1.50 10 \$12.50	
<i>Arundinaria falconeri</i>	<i>Bambusa fastuosa</i>

<i>Phyllostachys henonis</i>	<i>Phyllostachys Castillonis</i>	<i>A. donax</i> (Giant Reed)	<i>A. donax variegata</i>	
	<i>Phyllostachys marliacea</i>			

Our descriptive catalog contains descriptions of varieties listed in this booklet. Will be mailed on application.

## Palms

The hardy palms undoubtedly constitute the chief glory of our California vegetation and go further toward creating and maintaining the semi-tropical appearance than any other class of trees or plants. Owing to great diversity in growth and habit, they can be used in many different localities for a variety of purposes. For street planting we particularly recommend *Trachycarpus excelsus* and *T. nepalensis*, as their trunks are very small and require almost no space. It should be remembered that palms can be transplanted safely no matter how large or old, if properly done.

### CHAMAEROPS

	EACH	10
Balled, 4 to 5 ft.....	\$6.00	\$50.00
Balled, 3 to 4 ft.....	5.00	40.00

<b>WOODWARDIA</b>		
Potted.....	EACH	10 \$1.50
		\$12.50

## Roses

Rose growing is a specialty with us. One of the influences that originally determined the location of our nursery at Niles was the fact that soil and climate were most perfectly adapted to the growth of splendid plants of this beautiful and favorite flower. To these natural advantages we add many years of experience and experiment, so that we honestly believe that no better roses than ours are grown anywhere.

Our assortment is constantly changing. Unless a variety has some marked point in its favor, it is dropped. New varieties are constantly being tested, and if found valuable are propagated and offered for sale.

Every rosebush we sell is grown entirely in the open ground and almost all are budded. In spite of the pretended objections offered by disseminators of weak plants on their own roots, there is absolutely no doubt that the budded plants are far superior. (There are a very few unimportant exceptions and these we grow from cuttings, anyway.) The only possible objection is that the budded roses may send up suckers but this very rarely occurs by the method followed by us in growing budded roses. A further preventive is to plant them so that the point where they have been budded shall be three or four inches below the surface.

### NEW ROSES

\$1.50 Each

Out of hundreds of varieties recently introduced we have selected the following as being the most meritorious. They are varieties that even the most casual observer would stop to admire, and will add enchantment to any rose garden.

**Cheerful (H. T.).** Flaming orange.

**Cleveland.** Coppery-yellow at base of petals, shading into reddish copper toward tips.

**Columbia.** Glowing pink color.

**Constance (H. T.).** Buds long; orange-yellow streaked with red. Flowers golden yellow.

**Los Angeles (H.).** Luminous flame pink toned with coral and shaded with translucent gold at the base of the petals.

**Louise C. Breslau (H. T.).** Buds coral-red shaded with chrome yellow, becoming shrimp pink and coppery orange as flowers open.

**Margaret Dickson Hamill (H. T.).** Large globular blooms of straw color, flushed with carmine on back of petals.

**Marie (H. T.).** White flowers, daintily flushed shell-pink toward tips of petals.

**Mrs. Bertram J. Walker (H. T.).** Bright cerise pink.

**Naarden (H. T.).** Creamy white with light salmon pink in center.

**Peachblossom (T.).** Yellow at base, shading into a beautiful shell pink.

**Premier (T.).** Coral pink.

### MERITORIOUS VARIETIES

\$1.25 Each      \$10.00 per 10

Here we offer some of the most popular varieties lately introduced. We have tested them in our experimental rose gardens and do not hesitate to recommend them for first place in any rose garden.

**Colleen (H. T.).** Brilliant rose-pink with deeper rose crimson veneering on creamy yellow ground.

**Duchesse d'Auerstaedt (T.).** Light yellow, shading to nankeen at center.

**Gold Finch (C. Poly).** Yellow.

**Hoosier Beauty (H. T.).** Rich, dazzling crimson-scarlet; fragrant.

**Irish Fireflame (Irish Single).** Old gold flushed with pure crimson when fully developed.

**Lady Dunleath (H. T.).** Pale yellow with deep golden center.

**Mrs. Archie Gray (H. T.).** Deep creamy yellow.

**Mad. Collette Martinet (H. T.).** Long, deep yellow bud, opening to old gold shaded with orange yellow.

**National Emblem (H. T.).** Dark crimson, overlaid velvety crimson, shading to vermillion at edge.

**Ophelia Supreme (H. T.).** Light rose-pink with darker shading in center and yellow at base of each petal.

**September Morn (H. T.).** Color delicate flesh.

**Titania (H. T.).** Bronze and carmine.

### SCARCE VARIETIES

\$1.00 Each      \$7.50 per 10

These are varieties for which there has been such demand that we have been unable to propagate sufficient plants to take care of orders. We are not at all surprised that these roses should have become so popular in such a short time. They certainly deserve a place in every rose collection.

**Billard et Barre (T.).** Clear canary-yellow; turning to golden yellow.

**British Queen (H. T.).** Pure white. Buds are short pointed and flushed peach, but this tint usually disappears as flower opens.

**Chrissie MacKellar (H. T.).** Orange pink, veined carmine.

**Climbing Liberty (H. T.).** Red.

**Conrad F. Meyer (T.).** Clear silvery rose.

**Dr. Wm. Van Fleet (Wich.).** Flowers beautiful flesh pink.

**Duchess of Sutherland (H. T.).** Bright rose pink.

**Edith Part (H. T.).** Carmine with chamois flushed pink.

Edward Mawley (H. T.). Brilliant fiery red.  
 Francis Scott Key (H. T.). Deep red; flowers large; very double and well formed.  
 Gen. Jeff (H. T.). Large, rosy crimson.  
 George Dickson (H. T.). Deep scarlet, shaded velvety crimson.  
 Gorgeous (H. T.). Flowers large, well formed, chrome yellow, shading to copper.  
 Hadley (H. T.). Excellent, dark, velvety crimson variety.  
 Juliet (Pern.). Outside of petals old gold, interior rich rosy red, changing to deep rose as the flowers expand.  
 Lady Hillingdon (T.). Deep apricot yellow.  
 Lady Mary Ward (H. T.). Rich orange, shaded deeper apricot orange, with a decided metallic veneering. Strongly veined carmine.  
 Madame Edouard Herriot or Daily Mail (Pern.). Superb coral red, shaded yellow at base, passing to shrimp red.  
 Marcella (H. T.). Salmon flesh. Buds buff.  
 Melody (H. T.). Saffron yellow with primrose edges and tips.  
 Mrs. Charles E. Pearson (H. T.). Orange, flushed red, apricot, fawn and yellow.  
 Mrs. Charles Russell (H. T.). Rosy carmine with scarlet center.  
 Mrs. Charles Hunter (H. T.). Cerise, nearly red.  
 Mrs. Frederick W. Vanderbilt (H. T.). Salmon ground, with carmine, yellow and flesh mixed in.  
 Mrs. Myles Kennedy (T.). Delicate silvery white shaded buff, with pink center.  
 Mrs. Sam Ross (H. T.). Flesh, suffused salmon and underlaid with buff.  
 Mrs. Wakefield Christie-Miller (H. T.). Rosy carmine, outer petals soft pearly blush.  
 Old Gold (H. T.). Coppery orange.  
 Ophelia (H. T.). Salmon flesh shaded rose with chamois center.  
 Queen Mary (H. T.). Creamy ground, brilliantly penciled and flushed cerise, with an underlying shade of yellow.  
 Rayon d'Or Clear, bright, in tense yellow. Buds are coppery orange, slightly flushed carmines.  
 Soleil d'Or (Pern.). Golden yellow shaded nasturtium red.  
 Sunburst (H. T.). Yellow, shaded coppery orange. Outer petals lighter.  
 Tausendschoen (Poly.). Delicate pink, shaded rosaceous.  
 Tipperary (H. T.). The color is clear yellow.  
 Tip Top (Baby Doll) (Dwf. Poly.). Golden yellow, tipped with clear, bright cerise.  
 Verna Mackay (H. T.). Fawn suffused sulphur.  
 White Cecile Brunner (Dwf. Poly.). Pure white variety  
 Willowmere (H. T.). Rich shrimp pink, shaded yellow at center, with rosy carmine at edges of petals.

## GENERAL COLLECTION

\$0.75 Each      \$6.00 per 10

Agrippina (Bengal). Rich crimson.  
 American Beauty (H. P.). Deep rose.  
 American Pillar (Wich.) Brilliant pink with clear, white eye.  
 Anna de Diesbach (H. P.). Bright pink.  
 Antoine Rivoire (H. T.). Silvery flesh with salmon or even carmine center.  
 Arthur R. Goodwin (Pern.). Apricot flushed salmon, fading through shrimp pink to flesh.  
 Augustine Guinoisseau or White La France (H. T.). White, faintly suffused flesh pink.  
 Austrian Copper (Austrian Briar). Nasturtium-colored. Rich coppery red on upper or inside of petals, yellow on lower or outside.  
 Baby Rambler or Madame N. Levavasseur (Dwf. Poly.). Crimson.  
 Baldwin or Helen Gould (H. T.). Rosy crimson.  
 Baltimore Belle. White, blushed pink.  
 Banksia Double White. Pure white.  
 Banksia Double Yellow. Chamois yellow.  
 Banksia Single White. Pure white.  
 Baroness Rothchild (H. P.). Pale rose, tinted white.  
 Beaute de Lyon (Pern.). Superb coral red, lightly shaded yellow.  
 Beatae Inconstante (T.). Copper red, shaded carmine and yellow.  
 Beauty of Glazenvwood, see Fortune's Yellow.  
 Belle Siebrecht or Mrs. W. J. Grant (H. T.). Bright rosy pink.  
 Betty (H. T.). Coppery rose overlaid with ruddy gold.  
 Black Prince (H. P.). Dark crimson, nearly black.  
 Bridesmaid (T.). Clear, bright pink, very full and well formed.  
 Captain Christy (H. T.). Delicate flesh pink, medium to large.  
 Caroline Goodrich (H. P.). Light red, very double; rich in fragrance.  
 Chateau de Clos Vougeot (H. T.). Crimson center with fiery scarlet tips.  
 Cherokee Double White (Cher.). See Fortune's White.  
 Cherokee Single White (Cher.). White with conspicuous yellow stamens.  
 Cherokee Pink (Cher.). Pink.  
 Cherokee Red or Ramona (Cher.). Cherry carmine.  
 Clara Watson (H. T.). Silvery flesh with deep pink center.  
 Climbing Belle Siebrecht or Climbing Mrs. W. J. Grant (H. T.). Bright rosy pink.  
 Climbing Captain Christy (H. T.). Flesh pink. Flowers same as in bush form.  
 Climbing Cecile Brunner (Poly.). Salmon pink. Flowers identical with the bush variety. Very free bloomer; the only climbing Polyantha that flowers after the main spring crop. Of California origin and highly prized.  
 Climbing Devoniensis (T.). Creamy white with blush center. Large, double and intensely fragrant.  
 Climbing Etoile de France (H. T.). Climbing form of Etoile de France; deep, velvety crimson.  
 Climbing Frau Karl Druschi (H. P.). White.  
 Climbing Gruss an Teplitz (H. T.). Red.  
 Climbing Kaiserin Augusta Victoria (H. T.). or Mrs. Robert Peary. White faintly suffused lemon yellow.  
 Climbing Madame Caroline Testout (H. T.). Bright pink.  
 Climbing Papa Gontier (T.). Rosy crimson with carmine center.  
 Climbing Perle des Jardins (T.). Deep golden yellow.  
 Climbing Souvenir de Wootton (H. T.). Bright crimson.  
 Climbing White Cochet (T.). White tinged pink.  
 Clio (H. P.). Large flesh-colored flowers, shaded pink.  
 Crimson Rambler (Poly.). Crimson.  
 Cloth of Gold (Nois.). Deep yellow center, tinted sulphur toward edges.  
 Daily Mail. See Madame Edouard Herriot.  
 Dean Hole (H. T.). Silvery carmine, shaded salmon.  
 Dorothy Page Roberts (H. T.). Coppery pink suffused apricot yellow.  
 Dorothy Perkins (Wichuriana hybrid). Shell pink.  
 Dorothy Perkins White (Wich. Hybrid). White.  
 Dr. William Gordon (H. P.). Pink, petals edged with white.  
 Duchess of Albany (H. T.). Deep rose, nearly red.  
 Duchess of Wellington (H. T.). Intense saffron yellow stained with crimson, changing to deep coppery saffron yellow.  
 Duchesse de Brabant (T.). Soft rose.  
 Earl of Dufferin (H. P.). Velvety crimson.

- Elizabeth Rowe (Moss). Bright pink.  
 Erna Teschendorff (Dwf. Poly.). The color is a brilliant carmine red.  
 Etoile de France (H. T.). Velvety crimson with bright cerise center.  
 Eugene Furst (H. P.). Velvety crimson.  
 Excelsa (Red Dorothy Perkins) (Wich.). Flowers double, bright scarlet.  
 Farbenkönigin (H. T.). Bright carmine overlaid with silvery gloss.  
 Fisher Holmes (H. P.). Scarlet, shaded crimson.  
 Fortune's White (China). Pure white.  
 Fortune's Yellow (China). Creamy yellow, shaded orange and rose.  
 Francisca Kruger (T.). Deep chamois, shaded peach pink.  
 Franz Deegen (H. T.). Pale yellow with deep golden center.  
 Frau Karl Druschki (H. P.). Snow white.  
 General Jacquemot (H. P.). Brilliant red.  
 General MacArthur (H. T.). Fiery red.  
 General-Superior Arnold Janssen (H. T.). Deep carmine.  
 George Arends (H. T.). Delicate pink.  
 George C. Waud (H. T.). Orange vermillion.  
 Gloire de Chedane Guinoisseau (H. P.). Bright vermillion red, shaded velvety crimson.  
 Gloire de Dijon (T.). Fawn, tinted salmon and rose.  
 Gloire de Margottin (H. P.). Dazzling red.  
 Gloire des Rosomanes (Bourbon). Bright red.  
 Gloire Lyonnaise (H. T.). White, tinted lemon.  
 Golden Gate (T.). Creamy white, tinted yellow and rose.  
 Gold of Ophir or Ophirie (Nois.). Reddish copper, tinted fawn and salmon.  
 Grace Molyneux (H. T.). Creamy apricot with flesh center.  
 Gruss an Teplitz (H. T.). Rich scarlet, overlaid with crimson.  
 Harrisoni or Harrison's Yellow (Austrian Briar). Deep yellow flowers.  
 Harry Kirk (T.). Creamy yellow with bright amber center.  
 Heinrich Munch (H. P.). Beautiful shade of pink.  
 Hester. See Fortune's Yellow.  
 Hiawatha (Hybrid Wich.) Rich crimson with white center.  
 Hugh Dickson (H. P.). Brilliant crimson, tinted scarlet.  
 Improved Rainbow (T.). Carmine, rose and flesh.  
 Irish Elegance (Irish Single). Apricot, shaded orange and pink.  
 J. B. Clark (H. T.). Scarlet shaded crimson in spring.  
 Jessie (Dwf. Poly.). Bright crimson scarlet.  
 Jonkheer J. L. Mock (H. T.). Carmine and flesh pink.  
 Joseph Hill (H. T.). Pink shaded salmon.  
 Jubilee (H. P.). Deep crimson, shaded marroon; almost black.  
 Kaiserin Augusta Victoria (H. T.). White, faintly suffused lemon yellow.  
 Killarney (H. T.). Flesh suffused pink.  
 Killarney Brilliant (H. T.). Brilliant pink.  
 Konigin Carola (H. T.). Satiny rose with reverse petals silvery rose.  
 La Detroit (H. T.). Shell pink, tinted soft rose.  
 Lady Ashtown (H. T.). Pale rose, shading to yellow at base.  
 Lady Battersea (H. T.). Brilliant cherry crimson.  
 Lady Gay (Wich.). Cerise pink.  
 Lady Ursula (H. T.). Flesh pink.  
 La France (H. T.). Pink, tinted silvery blush.  
 Lamarque (Nois.). White.  
 Laurent Carle (H. T.). Brilliant velvety carmine.  
 Leuchtfieber (H. T.). Deep, rich velvety crimson.  
 Liberty (H. T.). Crimson scarlet.  
 Lieutenant Chaure (H. T.). Deep velvet.  
 Lyon (Pern.). Shrimp pink or coral; center salmon-shaded chrome yellow.  
 Mabel Morrison (H. P.). White, outer petals pink.  
 Madame Abel Chatenay (H. T.). Rosy carmine tinted salmon.  
 Madame Alfred Carriere (Nois.). Creamy white.  
 Madame Caroline Testout (H. T.). Bright pink.  
 Madame Riotte or Striped Reine Marie-Henriette. Deep rose, striped cherry red.  
 Madame Hector Leuillot (H. T.). Light yellow with carmine center.  
 Madame Hoste (T.). Canary yellow, deepening to golden yellow in center.  
 Mad. Jules Grolez (H. T.). Beautiful satiny china rose.  
 Madame Jenny Gillemot (H. T.). Canary yellow.  
 Madame Leon Pain (H. T.). Silvery pink, sometimes shaded salmon.  
 Madame N. Levavasseur. See Baby Rambler.  
 Madame Ravary (H. T.). Orange yellow, tinted flesh and creamy buff.  
 Magna Charta (H. P.). Rosy red.  
 Maman Cochet (T.). Deep rose pink on outer petals, but very light in center.  
 Maman Cochet, Red (Niles Cochet, T.). Cherry red on outer petals, lighter within.  
 Maman Cochet, White (T.). White with outer petals blushed.  
 Maman Cochet, Yellow (T.). Light yellow, edged rose.  
 Marechal Niel (T.). Deep golden yellow.  
 Margaret Dickson (H. P.). White with flesh center.  
 Marie Van Houtte (T.). Creamy yellow, tinted rose.  
 Marquis de Sinet (H. T.). Yellow flushed orange.  
 Marshall P. Wilder (H. P.). Red.  
 Mary Countess of Ilchester (H. T.). Crimson carmine.  
 Miss Alice de Rothschild (T.). Deep yellow center with lighter edges.  
 Miss Kate Moulton (H. T.). Pink, tinted silvery flesh.  
 Mlle. Cecile Brunner (Dwf. Poly.). Salmon pink.  
 Molly Sharman Crawford (T.). Pure white or with a faint greenish tinge.  
 Mousseline (Moss). White, shaded rose.  
 Mrs. Aaron Ward (H. T.). Yellow tinted salmon rose.  
 Mrs. Arthur Robert Waddell (H. T.). Orange pink or reddish salmon, outer petals flesh.  
 Mrs. George Shawyer (H. T.). Brilliant rose pink.  
 Mrs. Hubert Stevens (T.). White.  
 Mrs. John Laing (H. P.). Shell pink.  
 Mrs. R. G. Sharman Crawford (H. P.). Deep rosy pink, tinted pale flesh.  
 Mrs. Robert Peary. See Climbing Kaiserin Augusta Victoria.  
 Mrs. Wallace H. Rowe (H. T.). Bright "sweet-pea mauve."  
 Mrs. Wemyss Quin (H. T.). Intense lemon-chrome, washed with delicate maddery-orange.  
 Mrs. W. J. Grant. See Belle Siebrecht.  
 My Maryland (H. T.). Bright pink.  
 Orleans (Poly.). Brilliant red.  
 Ophirie. See Gold of Ophir.  
 Papa Gontier (T.). Rosy crimson with carmine center.  
 Paul Neyron (H. P.). Dark rose.  
 Perle des Jardins (T.). Deep golden yellow.  
 Perle d'Or (Dwf. Poly.). Golden yellow with orange center.  
 Persian Yellow (Austrian Briar). Bright yellow.  
 Pharisaer (H. T.). Silvery pink, faintly suffused salmon.  
 Philadelphia Rambler (Poly.). Light crimson.  
 Pink Frau Karl Druschki. See George Arends.  
 Pink Maman Cochet. See Maman Cochet.  
 Pink Moss (Moss). Beautiful bright pink.  
 Prairie Queen (Pr.). Reddish pink.  
 Prima Donna (H. T.). The color is a lovely shade of pink, changing to silvery pink.  
 Prince Camille de Rohan (H. P.). Deep, velvety crimson.

Prince de Bulgarie (H. T.). Silvery flesh, shaded rosy salmon.  
 Queen of Edgely or Pink American Beauty (H. P.). Pink.  
 Radiance (H. T.). Soft carmine pink.  
 Red Radiance (H. T.). Clear red.  
 Reine Marie Henriette (H. T.). Cherry red.  
 Reine Olga de Wurtemburg (H. T.). Dazzling red.  
 Reve d'Or (Nois.). Light yellow, shaded buff.  
 Rhea Reid (H. T.). Crimson scarlet.  
 Richmond (H. T.). Scarlet, lightly shaded crimson.  
 Safrano (T.). Saffron in bud, changing to pale yellow.  
 San Rafael. See Fortune's Yellow.  
 Silver Moon (Wichuraiana Hybrid). Pure white.  
 Souvenir de Wootton (H. T.). Bright crimson.  
 Souvenir du President Carnot (H. T.). Rosy flesh, sometimes nearly white.  
 Sunset (T.). Golden amber with a faint ruddy tinge.

Sweet Briar. The common Eglantine (*Rosa rubiginosa*), with simple pink.  
 The Bride (T.). White.  
 Ulrich Brunner (H. P.). Cherry red.  
 Veilchenblau (Poly.). Reddish lilac.  
 Viscountess Folkstone (H. T.). Creamy pink, shading to a salmon center.  
 White American Beauty. See Frau Karl Druschki.  
 White Killarney (H. T.). White.  
 Wichuraiana (Japanese species). White.  
 White Maman Cochet. See Maman Cochet, White.  
 William Allen Richardson (Nois.). Orange yellow.  
 William Shean (H. T.). Pure pink, delicately veined with ochre.  
 Winnie Davis (H. T.). Flesh pink, outer petals silvery blush.  
 Yellow Maman Cochet. See Maman Cochet, Yellow.  
 Yellow Rambler (Poly.). Flowers are yellow in bud, but nearly white when opened.

## Groups

The following lists include trees and plants grouped according to various characters and for certain special purposes.

### HEDGE PLANTS EVERGREEN

*Cupressus macrocarpa* (Monterey Cypress)  
*Taxus baccata* (English Yew)  
*Thuja orientalis* (Chinese Arbor Vitae)  
*Buxus* (Boxwood, various kinds)  
*Laurus nobilis* (Bay Tree)  
*Ligustrum japonicum* (Japanese Privet)  
*Ligustrum ovalifolium* (California Privet)  
*Ligustrum vulgare* (English Privet)  
*Myrtus communis* (Common Myrtle)  
*Pittosporum crassifolium*  
*Pittosporum eugenioides*  
*Pittosporum tenuifolium* (*P. nigricans*)  
*Pittosporum undulatum*  
*Prunus ilicifolia* (California Evergreen Cherry)  
*Pyracantha angustifolia*  
*Pyracantha coccinea* (Evergreen Hawthorn)  
*Pyracantha crenulata* (Chinese Evergreen Hawthorn)  
*Viburnum tinus* (*Laurustinus*)

### DECIDUOUS

*Chaenomeles japonica* (Japanese Scarlet Quince)  
*Punica granatum* (Flowering Pomegranate)

### TREES AND PLANTS NATIVE TO CALIFORNIA

### CONIFERS

*Abies concolor* (White Fir)  
*Chamaecyparis lawsoniana* (Lawson Cypress)  
*Cupressus macrocarpa* (Monterey Cypress)  
*Libocedrus decurrens* (Incense Cedar)  
*Pinus radiata* (Monterey Pine)  
*Sequoia gigantea* (Big Tree)  
*Sequoia sempervirens* (Redwood)  
*Thuja gigantea* (Giant Arbor Vitae)

**BROAD-LEAVED EVERGREENS**

*Arbutus menziesii* (Madrone)  
*Carpenteria californica*  
*Ceanothus thyrsiflorus* (Wild Lilac)  
*Mahonia aquifolium* (Oregon Grape)  
*Photinia arbutifolia* (Christmas Berry)  
*Prunus ilicifolia* (Evergreen Cherry)  
*Prunus ilicifolia integrifolia* (Catalina Cherry)  
*Quercus chryssolepis* (Live Oak)  
*Rhamnus californica* (Wild Coffee)  
*Umbellularia californica* (Wild Laurel)

**DECIDUOUS TREES**

*Juglans californica* (Walnut)

**DECIDUOUS SHRUBS**

*Ribes sanguineum* (Currant)  
*Spiraea billardii*  
*Symporicarpos occidentalis* (Snowberry)

**MISCELLANEOUS**

*Washingtonia filifera* (Fan Palm)  
*Washingtonia robusta*  
*Romneya coulteri* (Matilija Poppy)

**STREET TREES****BROAD-LEAVED EVERGREENS**

*Acacia dealbata* (Silver Wattle)  
*Acacia decurrens* (Black Wattle)  
*Acacia melanoxylon* (Black Acacia)  
*Acacia nerifolia* (A. floribunda)  
*Alectryon excelsum* (New Zealand Oak)  
*Camphora officinalis* (Camphor Tree)  
*Eucalyptus* (for roadsides)  
*Grevillea robusta* (Australian Silk Oak)  
*Schinus molle* (Pepper)  
*Sterculia diversifolia* (Bottle Tree)

**DECIDUOUS TREES**

*Acer* (Maple)—all kinds.  
*Aesculus hippocastanum* (White Horse Chestnut)  
*Aesculus carnea* (Red Horse Chestnut)  
*Betula alba* (European Birch)  
*Betula pendula gracilis* (Cut-Leaved Weeping Birch)  
*Catalpa speciosa*  
*Ginkgo biloba* (Maiden Hair Tree)  
*Liquidambar styraciflua*  
*Liriodendron tulipifera* (Tulip Tree)  
*Melia azedarach umbraculiformis* (Texas Umbrella)  
*Platanus orientalis* (European Sycamore)  
*Populus deltoides carolinensis* (Carolina Poplar)  
*Robinia pseudacacia* (Black Locust)  
*Robinia pseudacacia deaconsiana* (Pink Flowering Locust)  
*Tilia platyphyllos* (European Linden)  
*Ulmus* (Elm)—all kinds

**TREES AND SHRUBS BEARING ORNAMENTAL RED OR ORANGE BERRIES****CONIFERS**

*Taxus baccata* (English Yew)  
*Taxus baccata fastigiata* (Irish Yew)

**BROAD-LEAVED EVERGREENS**

*Arbutus menziesii* (Madrone)  
*Arbutus unedo* (Strawberry Tree)  
*Aucuba japonica*  
*Cneorum tricoccum*  
*Cornus capitata* (Evergreen Dogwood)  
*Cotoneaster*—all species  
*Erythronium japonica* and its varieties  
*Ilex aquifolium* (English Holly)  
*Nandina domestica*  
*Photinia arbutifolia* (Christmas Berry)  
*Pyracantha coccinea* (Evergreen Hawthorn)  
*Pyracantha coccinea lalandii*  
*Pyracantha crenulata*  
*Ruscus aculeatus*  
*Schinus molle* (Pepper Tree)  
*Viburnum odoratissimum*

**DECIDUOUS TREES**

*Celtis occidentalis*  
*Crataegus cordata* (Washington Thorn)  
*Crataegus crus-galli* (Cockspur)  
*Crataegus monogyna pauli* (Paul's Double Scarlet Thorn)  
*Crataegus oxyacantha* (English Hawthorn)  
*Crataegus rubra splendens*  
*Crataegus tomentosa*

**AGAVES, ETC.**

*Agave*—all  
*Cordyline australis*  
*Dasylirion*—all  
*Yucca*—all

## VALUABLE REFERENCE LITERATURE

**California Vegetables, in Garden and Field.** Fourth edition, revised and extended. A manual of practice with or without irrigation for semi-tropical countries. By Edward J. Wickson, A.M. Size of page, 6 by 9½, 368 pages, well printed and strongly bound in cloth; illustrated. Postpaid, \$2.50.

**Farm and Garden Rule Book.** By Prof. L. H. Bailey. A new edition of the Horticulturists' Rule Book and Compendium of Useful Information for Nurserymen, Florists, Seedmen, and Fruit-Growers. Size of book, 12 mo., containing 600 pages. Price, \$2.50, postpaid.

**California Garden Flowers.** By Edward J. Wickson. First edition 1915, 262 pages, 5½x7½ inches; illustrated; cloth bound. This book aims to tell the beginner in California, whether he be a scholar struggling with his school garden, or a suburban gazing vacantly on his residence lot, or the farm home maker, who is puzzled to translate his experience with teams, plows and pasture fields into trowels, pruning-shears and lawns, just what to do to make garden soils, grow plants and surround his abode with beauty under the peculiar climatic conditions of California. Price, \$2.00 per copy, postpaid.

**The Standard Cyclopedia of Horticulture.** By Prof. L. H. Bailey. In six volumes. Illustrated with color plates—4,000 engravings in the text and 96 full-page cuts.

A discussion for the amateur, professional and commercial grower of the kinds, characteristics and methods of cultivation of the species of plants grown in the region of the United States and Canada for ornamental trees, fruit trees and vegetables. Price, \$36.00 per set, carriage paid.

**California Fruits and How to Grow them.** Eighth edition, revised and extended. A manual of methods which have yielded great success. By Edward J. Wickson, A. N. Size of page, 6½x9½ inches, 513 pages, bound in cloth and fully illustrated. Postage prepaid, \$4.00 per copy.

**Roeding's Fruit Growers' Guide—First Edition.** The illustrations in this book, in many cases, convey the information desired. There are few men in California who have given more thought and who have had a wider experience in diversified horticulture than Geo. C. Roeding. This book contains practical information presented in a clear, concise manner which will be appreciated by the novice as well as the experienced fruit grower. Price \$1.00 per copy postpaid.

**Roses and How to Grow Them.** By many experts. There is such a charm about the rose that anyone interested in the subject of rose culture should have a copy of this book. Price \$2.00 postpaid.

**How to Lay Out Suburban Home Grounds.** The progressive farmer of today is using every effort to make his home attractive and inviting like that of his city brother by beautifying his grounds with trees and shrubbery, for he fully realizes how much it adds to the value of his property. This book certainly tells you how to do it. The author is Herbert J. Kelloway, Landscape Architect. Price \$3.00 postpaid.

**Soils: How to Handle and Improve Them.** From an economic standpoint this book should be in the hands of every farmer. Soil which has been developed to the highest point of fertility is sure to produce heavy crops. The author, S. W. Fletcher, goes into this subject very thoroughly. Price \$3.00 per copy postpaid.

## YUCCA TREE PROTECTORS

Our extremely long, hot and dry summers make it imperative for all fruit-growers to shade the bodies of young trees the first season. The most efficient and valuable protectors are made from the Yucca Palm. Soak the bundles in water before using.

No orders accepted for less than 25 Protectors.

Length	Width	Wt. per 100	25	50	100	1000
30 in.	7 in.	22 lbs.	\$1.00	\$1.50	\$2.50	\$21.00
